# 1 Introduction

## 1.1 Background

In October 2006 the Local Futures Group was commissioned to work with Farnham Town Council and its partners to produce a Vision for the Future. This Data Annex is intended to support this process. It provides a range of detailed statistics for the Waverley District and Farnham, analysing performance at a ward (and SOA) level, drawing on data from our *Local Knowledge* database.

This analysis took place within three 'dimensions' of sustainable development. These dictate the structure of the Annex.

- **Chapter 2** explores Waverley's economic development: its macroeconomic performance, industrial structure, business and enterprise, skills and qualifications, and the labour market.
- **Chapter 3** reviews the social profile: its age structure, migration and change, ethnicity, household structure, occupational structure, prosperity, deprivation and health.
- **Chapter 4** shows aspects of its environment: housing, commercial and industrial property, transport and connectivity and services.

The concluding section – Metadata – lists the definitions, sources and publishers of the data we use.

Health score	This indicator presents an index of the "Years of Life Lost" indicator provided as part of the underlying indicators which are used to produce the overall Index of Multiple Deprivation score. This indicator is inversed to ensure that 100 stands as the average and all results under 100 indicate a higher than average number of life years lost, results above 100 show a lower than average number of years of life lost. This allows a fair comparison across all areas in the country. Please note the figures are arbitrary figures, but serve as an indication of the levels of health deprivation within the locality. The figures at SOA level are derived from standardised expected death rates for those over 75, weighted by age and sex. All, other premature deaths are used to create the weighting for the average life lost ratio	Indices of Deprivation and Classifications	Neighbourhood Statistics - <a href="http://www.neighbourhood.gov.uk">www.neighbourhood.gov.uk</a>	2003	England
