Site Area (hectares)	13.3
WBC Reference	332
Current Use	Agricultural - grade 4
Site description (brownfield/ greenfield; topography; boundary; trees; neighbouring uses)	Greenfield sites divided by Waverley Lane. The relatively flat site to the north abuts low density residential development and agricultural land. The site is surrounded by mature hedged and treed boundaries. The site to the south is relatively flat but falls away to a stream in a narrow elongated valley to the south west. The site is surrounded by woodland and hedgerows.
Recent planning history	None
Flood Zone (1,2,3a,3b)	2 and a small area of 3 immediately adjoining the Bourne Stream.
Within AQMA	No
Within area recommended as Green Belt (WBC)	No
Within Conservation Area	No
Part of setting of Conservation Area	No
Part of setting of Listed Building	No
Part of Setting of Building of Local Merit	No
Within Site or Area of High Archaeological Potential	Very small area at the north western tip of the southern site.
Character Area (Design Statement)	Moor Park and the Bourne
Within South Farnham Arcadian Area	No
Within the Historic Old Park	No
Within public open space	No
Owner	Unknown
Within 5km of Thames Basin Heaths SPA	Yes
Within 5km of Wealden Heaths I SPA (None of Farnham NP Area is within 400m of the boundary of the Wealden Heaths Phase I and Phase II SPAs)	Yes
Within or adjoining SSSI	No
Within or adjoining Site of Nature Conservation Importance	Adjacent to SNCI
Within a Biodiversity Opportunity Area (BOA)	No
Within Surrey Hills AONB	No

Within AONB Candidate Area	No
Waverley Borough Council Landscape Study – Part I	High landscape value. High landscape sensitivity.
Within gap between Farnham and Aldershot; Badshot Lea and Weybourne; Rowledge and Wrecclesham; Rowledge and Boundstone and Rowledge and Frensham	No
Within or adjoins ancient woodland	Yes
Impact of development on landscape	The sites are close to residential development and have treed/ hedged boundaries. The treed boundaries to Waverley Lane provide a verdant entrance to the town. Development of the sites would be detrimental to landscape of high value and sensitivity, which forms part of the setting of an AONB Candidate area, and would be likely to be detrimental to this verdant approach to the town.
Proximity to Town Centre (metres)	2020
Proximity to Neighbourhood centre (metres)	1600
Proximity to Primary School (metres)	1700 infants 940 to junior
Proximity to Secondary School (metres)	3000
Proximity to GPs/ Medical Centre (metres)	870
Proximity to bus stop (metres)	200
Proximity to Farnham train station (metres)	1500
Suitable access to road	Yes but no footway
Confirmed through call for sites and information from land owners	Yes
Economic viability and marketability of the site	The sites are promoted by the landowner and are likely to prove acceptable to the market.
SANG available to support delivery of housing	The only way these sites could be shown to be deliverable in the short/ medium term is for on-site SANG provision as an integral part of the development subject to the approval of Natural England.
Summary of Assessment (Site suitability/ availability and achievability)	The sites have high landscape value and high landscape sensitivity in their own right and would form part of the setting of the Candidate AONB currently under review. The treed boundaries to Waverley Lane provide a verdant entrance to the town and are likely to be adversely affected by development. The site has no footpath connection. The Town Council is not aware of any SANG provision to serve the site. The site is not suitable or achievable as a potential housing option.

Proximity to Farnham train station (metres) Note Barriers	2980
Suitable access to road	Yes, but Frensham Vale does not have a footway.
Confirmed through call for sites and information from land owners	Yes
Economic viability and marketability of the site	There may be redevelopment costs involved. Nevertheless, the site is promoted by the landowner and is likely to prove acceptable to the market.
SANGS available to support delivery of housing	N/A
Summary of Assessment (Site suitability/ availability and achievability)	The site is currently occupied by low density residential development in a woodland setting. Any substantial development would have an adverse impact on the dominant landscape character of the area and the setting of the southern part of the town. The site is not well related to facilities and is not the most sustainably located. The site is unsuitable for a potential housing option.

Within gap between Farnham and Aldershot; Badshot Lea and Weybourne; Rowledge and Wrecclesham; Rowledge and Boundstone and Rowledge and Frensham	No
Within or adjoins ancient woodland	No
Impact of development on landscape	A large site which would significantly extend development into the countryside and create a substantial extension to Badshot Lea. A smaller area comprising the northern part of this site would represent a less intrusive extension to Badshot Lea and is identified as a potential housing option.
Proximity to Town Centre (metres) Note Barriers	3200
Proximity to Neighbourhood centre (metres) Note Barriers	2200
Proximity to Primary School (metres) Note Barriers	310 to infants 1400 to junior

Economic viability and marketability of the site	The site is promoted by the landowner and is likely to prove acceptable to the market.
SANGS available to support delivery of housing	No
Summary of Assessment (Site suitability/ availability and achievability)	A large site which would significantly extend development into the countryside and create a substantial and prominent extension to Badshot Lea. A smaller area comprising the northern part of this site would represent a less intrusive extension to Badshot Lea and would cause less harm to the character of the countryside. The Town Council is not aware that this site currently has SANGS available to support delivery of housing. This extensive site is unsuitable and currently not achievable as a potential housing option.

Economic viability and marketability of the site	The site is promoted by the landowner and is likely to prove acceptable to the market.
SANGS available to support delivery of housing	No
Summary of Assessment (Site suitability/ availability and achievability)	This open farm land is detached from the residential area. Further development would be detrimental to the gap between Farnham and Aldershot. The Town Council is not aware that this site currently has SANGS available to support delivery of housing. The site is unsuitable and unachievable as a potential housing option.

Within gap between Farnham and Aldershot; Badshot Lea and Weybourne; Rowledge and Wrecclesham; Rowledge and Boundstone and Rowledge and Frensham	Yes
Within or adjoins ancient woodland	No
Impact of development on landscape	Extending this well defined edge in this location with significant residential development would represent an intrusion into countryside.

Suitable access to road	Gardners Hill Road is a well treed narrow lane with no footways and is therefore unsuitable as an access to substantial residential development. The creation of an access onto the site would also result in the loss of trees from this rural lane to the detriment of the landscape character of the area.
Confirmed through call for sites and information from land owners	Yes
Economic viability and marketability of the site	The site is promoted by the landowner and is likely to prove acceptable to the market.
SANGS available to support delivery of housing	N/A
Summary of Assessment (Site suitability/ availability and achievability)	The site abuts well screened residential development to the north west, a treed lane to the north east and woodland to the south. Extending this well defined edge in this location with significant residential development would represent an intrusion into countryside. The site could not achieve suitable access without detriment to the rural lane. The site is unsuitable for a potential housing option.
